ORACLE CLOUD ACCESS PROGRAM

Acquisition Flexibility for the Integrated Cloud

Oracle offers a comprehensive portfolio of industry-leading technology in the cloud, including Data as a Service (DaaS), Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS).

Modern cloud applications from Oracle help you reimagine your business, your practices, and your experiences. The best-of-breed solutions in Oracle Cloud are integrated with social, mobile, and analytic capabilities to help you deliver the experiences customers expect, the talent to succeed, and the performance the market demands.

As a complement to the standard invoicing options for Oracle Cloud solutions, Oracle Financing offers a comprehensive range of simple and flexible acquisition solutions through the Oracle Cloud Access Program.

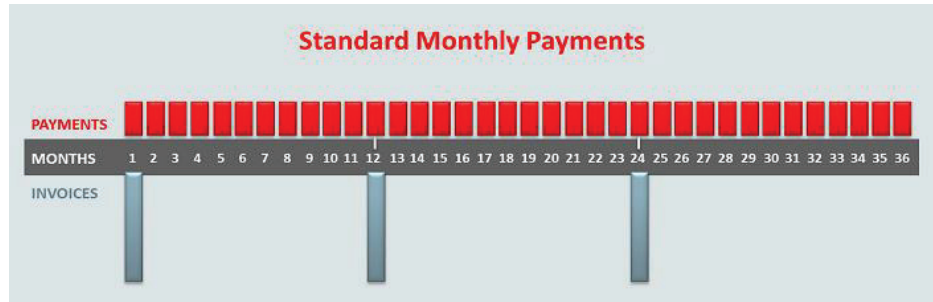

Choose from a variety of simple acquisition solutions to expedite your migration to the cloud, with the flexibility to adapt your IT strategy as business priorities evolve over time.

All Oracle Cloud Access Program offerings can be tailored to address the immediate needs of your organization; yet remain flexible so you can adapt your IT strategy as business priorities evolve over time.
